

[EEIO-2000VA Power Supply Transformer Technical Details:](#)

- Place of Origin: Guangdong, China (Mainland)
- Brand Name: EEIO
- Model Number: EEIO-2000VA
- Usage: Power
- Phase: Single
- Coil Structure: Toroidal
- Coil Number: Double Winding and multi-winding
- Type: Dry-type
- Certification: CE ROHS CQC UL
- Frequency: 50/60Hz
- Rated capacity: 2000VA
- Transformer type: Power Supply Transformer
- Color: White
- Efficiency: >92%
- Input voltage: AC110V
- Output voltage: AC220V
- Core material: CRGO Silicon Steel Core

Product-Description:

Voltage converter

AC110V TO AC220V
AC220V TO AC110V

CQC
certification

LVD
EU certification

EMC
EU certification

Household appliances voltage converter

110V to 220V OR 220V to 110V voltage converter

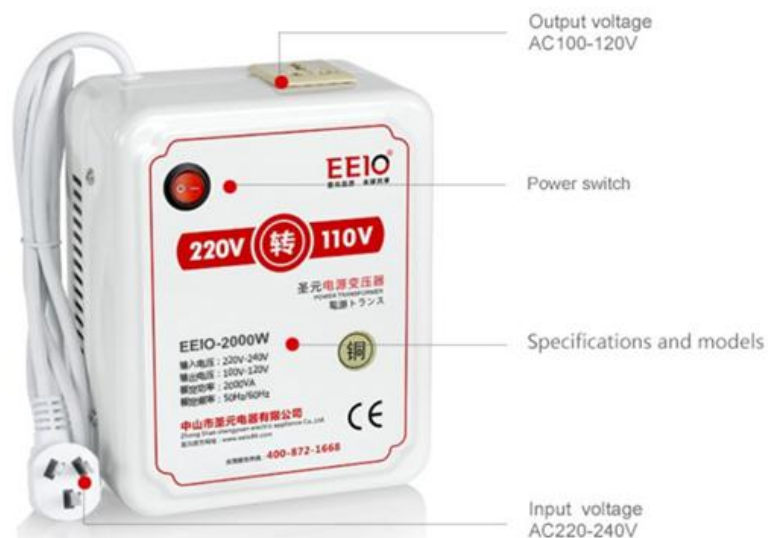

110V TO 220V

Family power voltage of 110 v, and electrical appliances voltage of 220 v, the electrical appliances can't directly inserted into the power supply is used, otherwise can't work normally.

220V TO 110V

Family power voltage of 110 v, and electrical appliances voltage of 220 v, the electrical appliances can't directly inserted into the power supply is used, otherwise damaged.

Applied to different electrical appliances

Meet the input voltage for the AC100-120V needs of the household electrical appliances

Product detail parameters

Product technical parameters and structure size shape

Products name	110v TO 220v power transformer	Size	205*160*95mm
Model	EEIO-2000W	weight	5.85KG
Rated power	2000VA	Wire length	1m
Input	100V-120V	Material	Flame retardant material, Toroidal transformer
Output	220V-240V	Pay attention to	Connect the power supply 15 minutes later, the connection of the use of electrical appliances

Power switch

Comes with LED indicator light

Input plug wire

Different countries can be configured
Standard plug

Universal output socket

Used in a variety of different
power supply plug

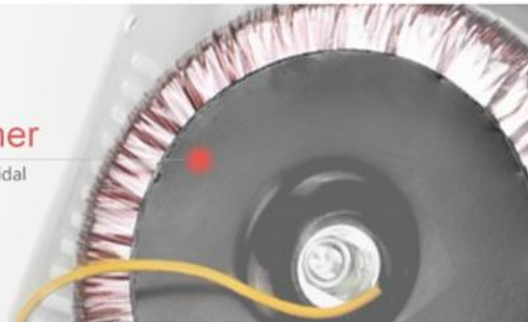

Air vents

On either side of the Air vents
The air convection

Built-in Toroidal transformer

The energy conversion rate of toroidal transformer is up to 95%

Production process

We are concentrating on manufacturing products

Primary winding

Toroidal Transformer
production process

Input/Output wire

Toroidal Transformer
production process

Spot test

Toroidal Transformer
production process

Aging test

Toroidal Transformer
12 hours of aging test

Product-type selection reference

Model	Power	Input	Output	Size	Weight
EEIO-500W	500VA	110V-120V	220V-240V	160*120*75mm	2.95KG
EEIO-1000W	1000VA	110V-120V	220V-240V	205*160*110mm	4.8KG
EEIO-2000W	2000VA	110V-120V	220V-240V	205*160*110mm	6.15KG
EEIO-3000W	3000VA	110V-120V	220V-240V	205*160*110mm	7.6KG
EEIO-500W	500VA	220V-240V	110V-120V	160*120*75mm	2.95KG
EEIO-1000W	1000VA	220V-240V	110V-120V	205*160*110mm	4.8KG
EEIO-2000W	2000VA	220V-240V	110V-120V	205*160*110mm	615KG
EEIO-3000W	3000VA	220V-240V	110V-120V	205*160*110mm	7.6KG

Packaging

Using thick shockproof packaging cartons, installed inside the foam packaging to avoid damage during transit

[Inner Packaging]
With thick shockproof
Special foam

[Secondary Packaging]
The middle
Shockproof carton

[Outer Packaging]
Super thick
Outside the carton

Product size	205*160*95mm	Inner box size	290*200*145mm
Net weight	5.85KG	Outer box size	560*310*365mm
Gross weight	6.15KG	Packing quantity	4PCS

Certificates

Passed the EMC electromagnetic compatibility
 LVD safety certification

CQC

CQC

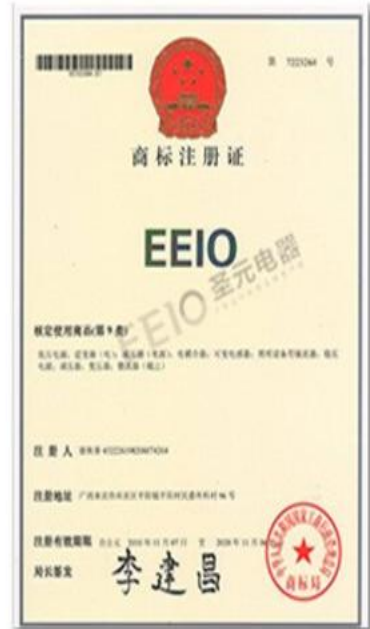

Test Report

LVD

LOGO

Superior Quality & Professional Service

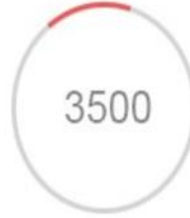

We are concentrating on manufacturing products

[Patents]
Four core technology patents

[Capacity]
Over 2000 sets per day

[Client witness]
More than 3500 Corporate clients

[Customized]
6300 pieces of Custom products
